Proceeding of the International
Conference on Computer Networks, Big Data
and IoT (ICCBi - 2019) Aug 22 2019 This
book presents the proceedings of the
International Conference on Computing
Networks, Big Data and IoT [ICCBi 2019],
held on December 19-20, 2019 at the Vaigai

College of Engineering, Madurai, India. Recent years have witnessed the intertwining development of the Internet of Things and big data, which are increasingly deployed in computer network architecture. As society becomes smarter, it is critical to replace the traditional technologies with modern ICT architectures. In this context, the Internet of Things connects smart objects through the Internet and as a result generates big data. This has led to new computing facilities being developed to derive intelligent decisions in the big data environment. The book covers a variety of topics, including information management, mobile computing and applications, emerging IoT applications, distributed communication networks, cloud computing, and healthcare big data. It also discusses security and privacy issues, network intrusion detection, cryptography, 5G/6G networks, social network analysis, artificial intelligence, human-machine interaction, smart home and smart city applications.

Nanotechnologies and Biomedical Engineering Sep 03 2020 This volume presents the proceedings of the 3rd International Conference on Nanotechnologies and Biomedical Engineering which was held on September 23-26, 2015 in Chisinau, Republic of Moldova. ICNBME-2015 continues the series of International Conferences in the field of nanotechnologies and biomedical engineering. It aims at bringing together scientists and engineers dealing with fundamental and applied research for reporting on the latest theoretical developments and applications involved in the fields. Topics include Nanotechnologies and nanomaterials Plasmonics and metamaterials Bio-micro/nano technologies Biomaterials Biosensors and sensors systems Biomedical instrumentation Biomedical signal processing Biomedical imaging and image processing Molecular, cellular and tissue engineering Clinical engineering, health technology management and assessment; Health informatics, e-health and telemedicine Biomedical engineering

Proceedings of 3rd International Conference on Epilepsy and Treatment 2017 Jul 14 2021 August 31–September 01, 2017 Brussels, Belgium Key Topics : Epilepsy, Semiology and Pathophysiology of Epilepsy, Causes of Epilepsy, Epilepsy Therapeutics, Epilepsy in Women and Inborn, Major types of Epilepsies, Epileptic Syndromes, Advanced Epilepsy Diagnosis Tests, Prevention and Management of Epilepsy, Impact of the Epilepsies on daily life, Diseases Associated with Epilepsy, Epilepsy Imitators, Epilepsy Case Reports, Animal Model Epilepsy,

Proceedings of the 3rd International Conference on Cardiovascular Diseases (ICCVd 2021) Mar 10 2021 This is an open access book. The objectives of the conference are as follows. to update knowledge about the relevant program priorities for addressing CVD burden in developing countries to explore options for the comprehensive management of primary cardiovascular risk factors such

as high blood pressure, high blood glucose level, smoking, and sedentary lifestyle to discuss the latest guidance and evidence on the early detection and management of CVD and its implementation in the context of developing countries, including the impact of the COVID-19 pandemic on the management of CVD to strengthen interprofessional collaboration in addressing challenges using multidisciplinary approaches for the prevention, treatment, and rehabilitation of patients with CVD to update knowledge about health technology science and innovation related to the management and rehabilitation of patients with CVD.

Proceedings of the 3rd International Halal Conference (INHAC 2016) Oct 17 2021
This book contains selected papers which were presented at the 3rd International Halal Conference (INHAC 2016), organized by the Academy of Contemporary Islamic Studies (ACIS), Universiti Teknologi MARA (UiTM) Shah Alam, Malaysia. It addresses halal-related issues that are applicable to various industries and explores a variety of contemporary and emerging

issues. Highlighting findings from both scientific and social research studies, it enhances the discussion on the halal industry (both in Malaysia and at the international level), and serves as an invitation to engage in more advanced research on the global halal industry.

Workshop Proceedings of the 10th

International Conference on Intelligent Environments May 31 2020 Advances in the engineering of sensing and acting capabilities, distributed in a wide range of specialized devices nowadays, provide an opportunity for the fundamental advances in computer science made in the past few decades to impact our daily lives. Sensors/actuators deployed in a physical space - a house, an office, a classroom, a car, a street - facilitate a link between an automated decision-making system and a technologically-enriched space. The Intelligent Environment, a digital environment that supports people in their daily lives, is a very active area of research which is attracting an

increasing number of professionals (both in academia and industry) worldwide. The prestigious 10th International Conference on Intelligent Environments (IE'14) is focused on the development of advanced Intelligent Environments and stimulates the discussion on several specific topics that are crucial to the future of the area. This volume is the combined proceedings of the workshops co-located with IE'14: 9th Workshop on Artificial Intelligence Techniques for Ambient Intelligence (AITAmI'14); 2nd International Workshop on Applications of Affective Computing in Intelligent Environments (ACIE'14); 3rd edition of the Workshop on Future Intelligent Educational Environments (WOFIEE'14); 2nd Workshop on Cloud-of-Things 2014 (CoT'14); 3rd International Workshop on the Reliability of Intelligent Environments (WoRIE 2014); 4th Workshop on Creative Science 2014 (CS'14); and 1st Workshop on Hyperrealistic Intelligent Environments 2014 (HyperRealitIE'14). This book offers an overview of the latest developments in key areas of the development of

Intelligent Environments.

Proceedings of the 3rd International Conference on Quantitative, Social, Biomedical and Economic Issues 2019 May 24

2022 This year's Conference is characterized by the research contributions of Scientists from Cyprus, England, Saudi Arabia and Greece. This year's Conference is organized by the Greek Foundation for Research in the Quantitative, Social and Economic Subjects, which is a non-profit Company with Articles of Association registered in the Chamber of Non-for-profit organizations. This Conference is a continuation, in a broader sense, of the four International Conferences which were organized by myself during the years 2003, 2009, 2013, and 2015, under the auspices of the Technological Educational Institute of Athens, as well as the 1st and 2nd International Conference on Quantitative, Social, Biomedical and Economic Issues, during the years 2017, 2018, Athens. The International Conferences of the years 2017, 2018, were organized under the Auspices of the Greek Foundation for Research in the Quantitative, Social and Economic Subjects which is based in Athens, Greece and has links with an International group of Academics. This

Conference is focusing on the impact of Education on the innovation process, the productivity and the well-balanced development of a country. The findings of (Varsakelis, Volume 35, Issue 7, September 2006, Pages 1083-1090, ELSEVIER) support the hypothesis that the higher the investment of a society in the quality of education, the higher the output of innovation activity. Furthermore, the development level of the governmental institutions is positively correlated with innovation activity. The aim of this Conference is to become a forum for the analysis of subjects related to the Quantitative, Social, Biomedical and Economic Sciences, the present state in Greece for the sectors of Education, Health, Innovative Business and the lessons learnt from them, in the context of the serious economic crisis in Europe and, particularly, in Greece. This Conference, also, is the opportunity for many highly respected scientists to present and exchange ideas in their respective research areas with the aim of initiating new joint projects. The new

developments in the sectors of contemporary Science and Economy are important and the need for a clear and responsible information is very high regarding, also, the possibility of fake news through the Internet.

SOUVENIR of 3rd International Science Congress ISC-2013 Nov 29 2022

International Science Congress Association organized 3rd International Science Congress (ISC-2013), with "Innovation with Global Responsibility" as its Focal Theme. ISC-2013 is divided in 20 sections. A total number of 900 Research Papers and 1000 registrations from 36 countries all over the world have been received. They are mainly from India, Iran, Sudan, Iraq, South Africa, Phillipines, Pakistan, Nighana, Erode, Czech Republic, Bangladesh, Swaziland, Jordan, USA, Thailand, Japan, Malaysia, Kazakhstan, UK, Colombia, Nepal, Italy, Bulgariya, Cameroun, France, Greece, Kazakhstan, Korea, Lithuania, Nigeria, Poland, Romania, Slovakiya, Ukraine, Venezuela and Turkey.

Proceedings of the 3rd International

Conference on Electrical and Information Technologies for Rail Transportation (EITRT) 2017 Aug 03 2020 The proceedings collect the latest research trends, methods and experimental results in the field of electrical and information technologies for rail transportation. The topics cover novel traction drive technologies of rail transportation, safety technology of rail transportation system, rail transportation information technology, rail transportation operational management technology, rail transportation cutting-edge theory and technology etc. The proceedings can be a valuable reference work for researchers and graduate students working in rail transportation, electrical engineering and information technologies.

Information Systems and Management Science Apr 10 2021 The book introduces concepts, principles, methods and procedures that will be valuable to students and scholars in thinking about existing organization systems, proposing new systems and working with management professionals in implementing new information systems. This book of Information Systems and Management Science (proceedings of ISMS 2020) is intended to be used as a reference by students and researchers who collect scientific and technical contributions with respect to

models, tools, technologies and applications in the field of information systems and management science. This textbook shows how to exploit information systems in a technology-rich management field.

Web-Based Learning: Men and Machines Mar 29 2020 This book provides an up-to-date study of technical, pedagogical and managerial issues in Web-based learning. The successful application of Web-based learning provides enhancements in workforce performance, helps to lower costs, and encourages innovation for Web-based and distance learning. It presents a selection of 20 refereed papers given at the First International Conference on Web-Based Learning from over 70 submissions by academic researchers and industry developers from 19 different countries. It provides an excellent resource for students, researchers and practitioners involved in Web-based learning. The proceedings have been selected for coverage in: • Index to Scientific & Technical Proceedings (ISTP CDRom version / ISI Proceedings) • Index to Social

Sciences & Humanities Proceedings® (ISSHP® / ISI Proceedings) • Index to Social Sciences & Humanities Proceedings (ISSHP CDROM version / ISI Proceedings)

Contents: Applications: A Web-Based Computer-Aided Learning Package on Pipe Flow (P K Yu & K W Chau) On the Design of Mathematical Instruction Material for Distant Learning Platform (P T Yu et al.) Learning Through Web-Based Assessment (C K Wong et al.) Models: VEGA-KGQA: A Knowledge-Grid-Based Question-Answering Approach (Z Hai et al.) Ubiquitous E-Learning – A Concept of Virtual Knowledge (M B Andersson) Patterns of Web Based Learning in the Semantic Web Era (A K Lui & S C Li) Tools: Improving the Design of an Online Self-Assessment Tool Utilizing Confidence Measurement (G Farrell & Y K Leung) The Design and Implementation of Virtual Laboratory Platform in Internet (J Wang et al.) Computing 2021 May 12 2021 The 3rd International Conference on Intelligent and Interactive Computing 2021 (IIC 2021) was held virtually at Universiti Teknikal Malaysia Melaka (UTeM), Melaka, Malaysia, on 9 September 2021. The event was jointly organized by the Department of Interactive Media and Department of Intelligent Computing and Analytics, Faculty of Information and Communication Technology, Universiti Teknikal Malaysia Melaka (UTeM), with the theme 'Empowering the World with Intelligent and Immersive Computing towards Smart Solutions'. This open access e-proceedings contains a compilation of 38 selected papers from the IIC 2021. The technical committees received a great response for submissions from various area including computational intelligence, data analytics, robotics and automation, multimedia and immersive technologies, education 4.0 and others. We hope that this proceeding will serve as a valuable reference for researchers. The event has achieved its aim which is to gather academic scholars and industry practitioners to share valuable knowledge

and expertise in related disciplines. Moreover, it is hoped that this conference has opened up opportunities to explore recent advancements and challenges on selected research discipline. As the editors-in-chief, we are grateful and would like to convey our sincerest gratitude to the fellow review members for their effort in reviewing the submitted papers for this proceeding. We are thankful to all the authors for revising their papers according to the proceeding requirements. Also, we would like to express our thoughtful appreciation to the organizer of the IIC 2021.

Proceedings of the 3rd International
Conference on Green Energy, Environment
and Sustainable Development (GEESD2022)

Nov 17 2021 With the general acknowledgement that climate change constitutes an existential threat to both mankind and to the planet, the quest for more sustainable and environmentally-friendly ways of developing and maintaining human civilizations has become

ever more important in recent years. This book presents the proceedings of *GEESD2022, the 3rd International Conference on Green Energy, Environment and Sustainable Development*. Due to continuing travel restrictions as a result of the COVID-19 pandemic, the conference was held as a hybrid event, part face-to-face in Beijing, China, and partly online via Zoom, on 29 June 2022. The 141 papers included here were selected after a rigorous 6-month process of evaluation and peer-review from the more than 300 submissions received, and are grouped into 7 sections: energy system and smart control; sustainable and green energy; environmental modeling and simulation; environmental science and pollution research; ecology and rural environment; building and environment; and water and mineral resources. The book provides an overview of the most up-to-date findings and technologies current in green energy, environment and sustainable development today, and will be of interest to all those working in the field.

Asia Conference on Industrial Engineering and Management Innovation (IEMI2012) Dec 19 2021 The purpose of the 2012 3rd International Asia Conference on industrial engineering and management innovation (IEMI2012) is to bring together researchers, engineers and practitioners interested in the application of informatics to industrial engineering and management innovation.

Biomedical Engineering and Neuroscience Dec 27 2019 This edition of the volume 'Advances in Intelligent Systems and Computing' presents the proceedings of the 3rd International Scientific Conference BCI. The event was held at Opole University of Technology in Poland on 13 and 14 March 2018. Since 2014 the conference has taken place every two years at the University's Faculty of Electrical Engineering, Automatic Control and Informatics. The conference focused on the issues relating to new trends in modern brain-computer interfaces (BCI) and control engineering, including neurobiology-neurosurgery, cognitive science-bioethics,

biophysics-biochemistry, modeling-neuroinformatics, BCI technology, biomedical engineering, control and robotics, computer engineering and neurorehabilitation-biofeedback. In addition to paper presentations, the scientific program also included a number of practical demonstrations covering, for example, the on-line control of mobile robot and unmanned aerial vehicle using the BCI technology.

Proceedings of 3rd International Sustainable Buildings Symposium (ISBS 2017) Feb 06 2021 This book describes the latest advances, innovations, and applications in the field of building design, environmental engineering and sustainability as presented by leading international researchers, engineers, architects and urban planners at the 3rd International Sustainable Buildings Symposium (ISBS), held in Dubai, UAE from 15 to 17 March 2017. It covers highly diverse topics, including smart cities, sustainable building and construction design, sustainable urban planning, infrastructure development, structural

resilience under natural hazards, water and waste management, energy efficiency, climate change impacts, life cycle assessment, environmental policies, and strengthening and rehabilitation of structures. The contributions amply demonstrate that sustainable building design is key to protecting and preserving natural resources, economic growth, cultural heritage and public health. The contributions were selected by means of a rigorous peer-review process and highlight many exciting ideas that will spur novel research directions and foster multidisciplinary collaboration among different specialists.

Proceedings of the 3rd International Conference of Economics and Management (CIREG 2016) Volume I Jan 20 2022 This book brings together papers presented at the 3rd Conference of Research in Economics and Management (CIREG) held in Morocco in May 2016. With a focus on the challenges of SMEs and innovative solutions, they highlight the contribution of researchers in the fields of business and management, with all their micro and macro-economic aspects. They shed light on

the universal scientific vision of the importance of SMEs with answers relevant to their local context and adapted to their specific national situation. The relevance of SME research lies in its heuristic value of analyzing change, rather than in constructing a category, a particularly useful empirical concept. This first volume is focused on economic issues.
