Plan and deliver a curriculum to help your students connect with the humanity of others! In the wake of 2020, we need today's young learners to be prepared to develop solutions to a host of entrenched and complex issues, including systemic racism, massive environmental problems, deep political divisions, and future

pandemics that will severely test the effectiveness and equity of our health policies. What better place to start that preparation than with a social studies curriculum that enables elementary students to envision and build a better world? In this engaging guide two experienced social studies educators unpack the oppressions that so often characterize the elementary curriculum—normalization, idealization, heroification, and dramatization—and show how common pitfalls can be replaced with creative solutions. Whether you're a classroom teacher, methods student, or curriculum coordinator, this is a book that can transform your understanding of the social studies disciplines and their power to disrupt the narratives that maintain current inequities. Help your child succeed on the Texas statewide assessments with the premiere resource used by parents and teachers! With Practice More for the TAKS [grade 10, social studies], you will strengthen your understanding of key concepts needed to succeed on the TAKS exam, studying just the subject matter you need help with. You'll gain confidence by practicing and exercising the skills learned in class, whether at home or school, alone or with friends and family to help. In Practice More for the TAKS [grade 10, social studies] students will understand the core test objectives of the Social Studies portion of the exam by:

- Demonstrating an understanding of issues and events in U.S. History .
- Demonstrating an understanding of geographic influences on historical issues and events .
- Demonstrating an understanding of economic and social influences on historical issues and events .
- Demonstrating an understanding of political influences on historical issues and events .

Using critical-thinking skills to analyze social studies information

180 Days of Social Studies is a fun and effective daily practice workbook designed to help students build social studies content knowledge. This easy-to-use fourth grade workbook is great for at-home learning or in the classroom. The engaging standards-based activities cover grade-level skills with easy to follow instructions and an answer key to quickly assess student understanding. Each week students explore a new topic focusing on one of the four social studies disciplines: history, civics, geography, and economics. Watch student's confidence soar as they build analytic skills with these quick independent learning activities. Parents appreciate the teacher-approved activity books that keep their child engaged and learning. Great for homeschooling, to reinforce learning at school, or prevent learning loss over summer. Teachers rely on the daily practice workbooks to save them valuable time. The ready to implement activities are perfect for daily morning review or homework. The activities can also be used for intervention skill building to address learning gaps. Supports the C3 Framework and aligns to the NCSS curriculum standards. Four units focus on the GED Social Studies topics: Civics and Government; U.S. History; Economics; Geography and the World. Each lesson includes an introduction to one of the content area subtopics, an example question modeled on the GED test, and hints, explanations, and definitions to help you understand the question. Guided practice offers support as you think

through practice items. Extended response lessons help you prepare for the social studies essay prompts.--Back cover. A team of researchers from 35 states across the country developed a survey designed to create a snapshot of social studies teaching and learning in the United States. With over 12,000 responses, it is the largest survey of social studies teachers in over three decades. We asked teachers about their curricular goals, their methods of instruction, their use of technology, and the way they address the needs of English language learners and students with disabilities. We gathered demographic data too, along with inquiries about the teachers' training, their professional development experiences, and even whether they serve as coaches. The enormous data set from this project was analyzed by multiple research teams, each with its own chapter. This volume would be a valuable resource for any professor, doctoral student, or Master's student examining the field of social studies education. It is hard to imagine a research study, topical article, or professional development session concerning social studies that would not quote findings from this book about the current status of social studies. With chapters on such key issues as the teaching of history, how teachers address religion, social studies teachers' use of technology, and how teachers adapt their instruction for students with disabilities or for English language learners, the book's content will immediately be relevant and useful.

Teaching Social Studies: A Methods Book for Methods Teachers, features tasks designed to take preservice teachers deep into schools in general and into social studies education in particular. Organized around Joseph Schwab's commonplaces of education and recognizing the role of inquiry as a preferred pedagogy in social studies, the book offers a series of short chapters that highlight learners and learning, subject matter, teachers and teaching, and school context. The 42 chapters describe tasks that the authors assign to their methods students as either in?class or as outside?of?class assignments. The components of each chapter are: > Summary of the task > Description of the exercise (i.e., what students are to do, the necessary resources, the timeframe for completion, grading criteria) > Description of how students respond to the activity > Description of how the task fits into the overall course > List of readings and references > Appendix that supplements the task description

edited volume showcases work from the emerging field of design-based research (DBR) within social studies education and explores the unique challenges and opportunities that arise when applying the approach in classrooms. Usually associated with STEM fields, DBR's unique ability to generate practical theories of learning and to engineer theory-driven improvements to practice holds meaningful potential for the social studies. Each chapter describes a different DBR study, exploring the affordances and dilemmas of the approach. Chapters cover such topics as iterative design, using and producing theory, collaborating with educators, and the ways that DBR attends to historical, political, and social context.

Contents: Objectives in Teaching Social Studies, Scope and Sequence in the Social Studies, Trends and Issues in the Social Studies, Learning Opportunities in the Social Studies, Pupil Learning in the Social Studies, Reading in the Social Studies, Writing in the Social Studies, Social Studies Children's Literature, Grouping for Instruction in the Social Studies, Leadership in the Social Studies, Social Studies and Democracy in the Classroom, Technology in the Social Studies Curriculum, Maps, Globes and the Social Studies, Current Events in the Social Studies, Social Studies, Integrating School and Society, Measurement and Evaluation in the Social Studies, Social Studies in Teacher Education, Restructuring the Social Studies (A Public Debate). The author wrote this new edition of the most popular elementary social studies methods text on the market with the following three goals in mind: to present the most powerful social studies content and pedagogy for children in elementary school, to offer the material in simple and accessible ways, and to write in a first person active voice. The purpose of this book is to introduce new teachers to the world of social studies teaching and learning in elementary and middle schools. Geography, history, government and the other social sciences are delivered into the palm of the new teacher's hand along with a suite of tools for bringing social studies to life in the classroom. The book is organized into three sections—the first orients the reader to the mission of social studies education to the increasingly diverse children we teach, the second concentrates on the curriculum, and the third deals with instruction, how we plan and teach this curriculum. Three central themes continue to pervade the book—democratic citizenship, diversity, and the social sciences—to ultimately encourage teachers to excite their students about closing the gap between social realities and democratic ideals. An exceptionally strong chapter on multicultural issues (Chapter 2) helps future teachers truly understand the changing demographics of the American classroom. Abridged NCSS standards and their classroom applications are found at www.myeducationlab.com. Help students move from surface-level learning to the transfer of understanding. How do social studies teachers maximize instruction to ensure students are prepared for an informed civic life? This book shows how the field is more than simply memorizing dates and facts—it encapsulates the skillful ability to conduct investigations, analyze sources, place events in historical context, and synthesize divergent

points of view. Best practices for applying visible learning are presented through:

- A scaffolded approach including surface-level learning, deep learning, and transfer of learning
- Examples of strategies, lessons, and activities best suited for each level of learning
- Planning tools, rubrics, and templates to guide instruction

Accompanying CD-ROM is an interactive PowerPoint study module. Just what exactly is social studies, you may ask? Well, it includes the study of all kinds of people and places, some far away and some next door. In this book we talk about families, like your family in your house, and also lots of people close by, which we call a town or city, and finally about even more people in cities or outside of cities, all living in big places called countries. My Story and the World Around Me is a course for lower elementary students. It includes basic introductions to history, politics, sociology, economics, and geography, and provides a fuller understanding of God's world and the cultures of the countries. This is a daily adventure-based curriculum series that encourages families to explore the world together through four nine-week quests and to understand it better from God's perspective. It is designed with elements that make weekly learning fun and interactive, including: Activity time Word find time Review time My story journal Learn all about the world while you discover more about your own. And make sure you pull out your Quest Collector Cards at the beginning of each quest. Your world map on the other side shows where you are in each lesson! <http://www.routledge.com/textbooks/instructionalstrategies> Social Studies Today will help educators—teachers, curriculum specialists, and researchers—think deeply about contemporary social studies education. More than simply learning about key topics, this collection invites readers to think through some of the most relevant, dynamic, and challenging questions animating social studies education today. With 12 new chapters highlighting recent developments in the field, the second edition features the work of major scholars such as James Banks, Diana Hess, Joel Westheimer, Meira Levinson, Sam Wineburg, Beth Rubin, Keith Barton, Margaret Crocco, and more. Each chapter tackles a specific question on issues such as the difficulties of teaching historical thinking in the classroom, responding to high-stakes testing, teaching patriotism, judging the credibility of Internet sources, and teaching with film and geospatial technologies. Accessible, compelling, and practical, these chapters—full of rich examples and illustrations—showcase some of the most original thinking in the field, and offer pre- and in-service teachers alike a panoramic window on social studies curricula and instruction and new ways to improve them. Walter C. Parker is Professor and Chair of Social Studies Education and (by courtesy) Professor of Political Science at the University of Washington, Seattle. Now in its 4th edition, this popular text for secondary social studies methods courses integrates discussions of educational goals and the nature of history and social studies with ideas for organizing social studies curricula, units, lessons, projects, and activities. A major theme throughout is that what teachers choose to teach and the way they teach reflect their broader understanding of society, history, and the purpose of social studies education. Advocating an inquiry and activity-based view of social studies teaching that respects the points of view of students and teachers, and based in practice and experience, it offers systematic support and open, honest advice for new teachers. Each chapter addresses a broad question about social studies education; sub-chapters begin with narrower questions that direct attention to specific educational issues. Lesson ideas and materials in the book and online are especially designed to help new teachers to address common core learning standards, to work in inclusive settings, and to promote literacy and the use of technology in social studies classrooms. Chapters include highlighted Learning Activities, Teaching Activities, and Classroom Activities designed to provoke discussion and illustrate different approaches to teaching social studies, and conclude with recommendations for further reading and links to on-line essays about related social studies topics. Activities are followed by four categories: "Think it over," "Add your voice to the discussion," "Try it yourself," and "It's your classroom." All of these are supported with online teaching material. Designed for undergraduate and graduate pre-service social studies methods courses, this text is also useful for in-service training programs, as a reference for new social studies teachers, and as a resource for experienced social studies educators who are engaged in rethinking their teaching practice. New in the Fourth Edition Provides a number of new lesson ideas paired

with online lesson plans and activity sheets in every chapter Takes a new focus on data-driven, standards-based instruction, especially in relation to the common core curriculum Addresses the interactive nature of learning in updated technology sections Reflects current trends in history education Includes more of what the author has learned from working teachers Offers a wealth of additional on-line material linked to the text Cirrus Test Prep's TExES Social Studies 7-12 (232) Study Guide: Test Prep and Practice Questions for the TExES (232) Exam will provide you with a detailed overview of the TExES 232, so you know exactly what to expect on test day. Cirrus Test Prep's study materials ensure that new educators feel prepared on test day and beyond. Instructional Strategies for Middle and High School Social Studies: Methods, Assessment, and Classroom Management is an exciting methods-based text that integrates appropriate management and assessment techniques with seven distinct teaching strategies. Writing explicitly for pre-service social studies teachers, veteran teacher educator Bruce E. Larson offers detailed descriptions of a range of instructional strategies, along with guidelines for deciding how and when to use each. Part I offers the foundations for teaching and learning in a social studies classroom, and explores contextual, theoretical, and policy factors that all teachers need to consider before entering the classroom. Part II delivers a range of comprehensive strategies for providing instruction that is appropriate for particular lessons, student abilities, and classroom environments. The practical strategies in Part II build upon the learning theories described in Part I, positioning Instructional Strategies for Middle and High School Social Studies to be the go-to, all-inclusive teacher's guide to the social studies classroom. New to this Edition A list of goals before each chapter presents an overview of the chapter's content focus, and provides an outline for the chapter review. Extensively revised Part I (chapters 1-4)

provides an updated review of national standards developed for teaching history, geography, civics, and economics. In-depth applications of the Common Core State Standards for the social studies are also explored. New "Reality Check" feature provides directions for integrating field-based experiences into the chapters, and contextualizes the ideas in the book for a classroom setting. Each chapter in Part II (chapters 5-11) has been expanded to include a section labeled "Enhancing Student Learning with Technology," offering websites, links, and other resources for integrating recent technologies into the classroom. Chapters 5-11 include a new "Making Your Lesson More Meaningful for ELLs" feature, which provides ideas—based on current research and theories about learning language—for engaging ELLs, specific for each instructional strategy. Expanded discussion of the "Understanding by Design" model equips teachers to design learning experiences that promote student understanding by intentionally designing what happens in the classroom, and developing authentic formative assessments of student learning. The preparation of social studies teachers is crucial not only to the project of good education, but, even more broadly, to the cultivation of a healthy democracy and the growth of a nation's citizens. This one-of-a-kind resource features ideas from over 100 of the field's most thoughtful teacher educators reflecting on their best practices and offering specific strategies through which future teachers can learn to teach, thus illuminating the careful planning and deep thinking that go into the preparation of the social studies teachers. While concentrating on daily teaching realities such as lesson planning and meeting national, state, or provincial standards, each contributor also wrestles with the most important current issues on educating teachers for today's increasingly diverse, complex, and global society. Features of this unique teaching resource include: Volume sections that are arranged by both disciplinary organization and approach or activity. Thoughtful introductory section essays that conceptualize each theme, providing a conscientious theoretical overview and analysis of each individual section. Rich and concrete examples of best practice from some of the field's most diverse and highly regarded scholars and teacher educators An index that identifies the appropriate teaching level and teacher education context and links the strategies and ideas that are presented in the essay to the relevant INTASC and NCSS standards for quick reference in classroom planning as well as institutional development and implementation. A much-needed addition to the field, this comprehensive volume will be of value to any teacher interested in social studies or diversity education across age groups and educational contexts. Race and racism are a foundational part of the global and American experience. With this idea in mind, our social studies classes should reflect this reality. Social studies educators often have difficulties teaching about race within the context of their classrooms due to a variety of institutional and personal factors. Doing Race in Social Studies: Critical Perspectives provides teachers at all levels with research in social studies and critical race theory (CRT) and specific content ideas for how to teach about race within their social studies classes. The chapters in this book serve to fill the gap between the theoretical and the practical, as well as help teachers come to a better understanding of how teaching social studies from a CRT perspective can be enacted. The chapters included in this volume are written by prominent scholars in the field of social studies and CRT. They represent an original melding of CRT concepts with considerations of enacted social studies pedagogy. This volume addresses a void in the social studies conversation about race—how to think and teach about race within the social science disciplines that comprise the social studies. Given the original nature of this work, Doing Race in Social Studies: Critical Perspectives is a much-needed addition to the conversation about race and social studies education.
