**The Family Cooks** Aug 28 2022 A call to action for parents, kids, and anyone who eats to start cooking their own meals again For families, eating right has become a monumental challenge. Cultural messages convince us that we no longer have time to cook, and food marketers spend billions persuading us that packaged, processed food is convenient, satisfying...and the key to happiness. Half of all our meals are now eaten outside the home. The result? Skyrocketing rates of heart disease and diabetes and unprecedented levels of childhood obesity. This crisis is movingly portrayed in author and activist Laurie David's new documentary (co-executive produced with Katie Couric), Fed Up! Luckily, we have a solution: Studies have clearly shown that eating home-cooked meals reduces obesity and develops lifelong healthy eating habits. There is an exciting movement afoot that involves a skillet, a few good knives, and some fresh ingredients: Home cooking is making a comeback. In *The Family Cooks*, David inspires parents and kids to take control of what they eat by making it themselves. With her long-time collaborator, Kirstin Uhrenholdt, David worked up more than 100 recipes that are simple, fast, "low in the bad stuff and high in the good stuff," and designed to bring kids into the cooking process. The authors also demystify cooking terms and break down basic prep techniques, creating stress-free meals that foster health, togetherness, and happy palates. *The Family Cooks* is the ideal companion for unseasoned chefs of all stripes, whether they're parenting or being parented.
