Beyond Five in a Row Aug 23 2019

Transforming the Workforce for Children Birth Through Age 8 Mar 30 2020 Children are already learning at birth, and they develop and learn at a rapid pace in their early years. This provides a critical foundation for lifelong progress, and the adults who provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. Transforming the Workforce for Children Birth Through Age 8 explores the science of child development, particularly looking at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge and competencies for care and education professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress. Transforming the Workforce for Children Birth Through Age 8 offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development, and research to continue to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children.

Taking Social-Emotional Learning Schoolwide May 01 2020 What's the secret to making schoolwide SEL work? Growing numbers of people recognize that social-emotional learning (SEL) is central to a well-rounded education and to success in life outside and beyond the school building. What's missing is the know-how and framework for weaving SEL into the fabric of the school. In this highly practical and eminently readable book, Thomas R. Hoerr shows teachers, administrators, and other school staff how to integrate the Formative Five success skills (empathy, integrity, self-control, embracing diversity, and grit) with school culture essentials by answering these questions: 1. How can you ensure that your school or district is helping students develop their SEL skills across disciplines? Address your values, vision, mission. 2. What effective programs and activities support student development of SEL skills at the classroom, school, and district levels? Consider your practices. 3. How can you leverage personal relationships within the school and in the community to cultivate students' appreciation of how the differences among us make us stronger? Involve your people. 4. How can you weave an SEL narrative into your school's culture? Live your narrative. 5. What can you do to establish and nurture a welcoming school environment as you strive to enhance students' SEL skills? Embrace your place. Replete with real-life examples from the author's years as a school leader, relevant findings from the research, and helpful strategies for use at all levels and with all K-12 populations, Taking Social-Emotional Learning Schoolwide is the ultimate blueprint for making sure students and staff are equipped to thrive.

Five Steps to Happiness Nov 26 2019 Life is there to be enjoyed, not endured' In Five Steps to Happiness, Cognitive Behavioural Therapist Enda Murphy guides the reader through the five kinds of thinking and behaviour that lead to panic attacks, anxiety and depression. With a unique and simple style, free from psychobabble, Enda explains the reasons why most of us have these five habits. He clarifies what mental health actually is and investigates why we keep driving the thinking and behaviour that causes our unhappiness. He explains where our emotions come from and challenges our perception of what we think is normal. The five habits are also described in exercises throughout the book which teach the reader how they manifest themselves and how to identify the triggers behind them. With many of his ex clients allowing him to use their stories, Enda is able to demonstrate the development of each habit through a stage-by-stage examination of each client's experience. It is this clear and exact approach that makes Murphy's book so effective at getting to the root of why we experience mental distress. Through Cognitive Behavioural Therapy, Enda teaches the reader methods whereby those of us who experience mental health difficulties can introduce into our lives, skills to change our destructive thinking and behaviours. While primarily a book for those who are experiencing anxiety and depression, it is also one for those wishing to understand why these conditions occur, those whose families and friends may be suffering and also therapists and health professionals who would like to learn more about how Cognitive Behavioural Therapy works in real life. *The 5 Love Languages of Children* Oct 25 2019 More than 1 million sold! You know you love your child. But how can you make sure your child knows it? The #1 New York Times bestselling *The 5 Love Languages*® has helped millions of couples learn the secret to building a love that lasts. Active Learning Online Oct 18 2021 Inspired by the recent proliferation of online courses necessitated by the COVID 19 pandemic, researcher and educational innovator Stephen M. Kosslyn offers instructors and course designers (as well as school administrations and teacher-education students) a treasure trove of active learning principles and activities for implementation in online, hybrid and in-person courses. Whether your course is synchronous (e.g., live with Zoom) or asynchronous (e.g., using video content on Canvas), this book will inject active learning into existing courses or into courses designed from scratch. In both cases, active learning will make the courses not only more interesting but also more effective; student engagement will increase, learning outcomes will be reached, and general teaching and learning experiences will be enriched.

The Fifth Discipline Apr 11 2021 MORE THAN ONE MILLION COPIES IN PRINT • “One of the seminal management books of the past seventy-five years.”—Harvard Business Review This revised edition of the bestselling classic is based on fifteen years of experience in putting Peter Senge's ideas into practice. As Senge makes clear, in the long run the only sustainable competitive advantage is your organization's ability to learn faster than the competition. The leadership stories demonstrate the many ways that the core ideas of the Fifth Discipline, many of which seemed radical when first published, have become deeply integrated into people's ways of seeing the world and their managerial practices. Senge describes how companies can rid themselves of the learning blocks that threaten their productivity and success by adopting the strategies of learning organizations, in which new and expansive patterns of thinking are nurtured, collective aspiration is set free, and people are continually learning how to create the results they truly desire. Mastering the disciplines Senge outlines in the book will: • Reignite the spark of genuine learning driven by people focused on what truly matters to them • Bridge teamwork into macrocreativity • Free you of confining assumptions and mindsets • Teach you to see the forest and the trees • End the struggle between work and personal time This updated edition contains more than one hundred pages of new material based on interviews with dozens of practitioners at companies such as BP, Unilever, Intel, Ford, HP, and Saudi Aramco and organizations such as Roca, Oxfam, and The World Bank.

Make It Stick Aug 16 2021 Discusses the best methods of learning, describing how rereading and rote repetition are counterproductive and how such techniques as self-testing, spaced retrieval, and finding additional layers of information in new material can enhance learning.

The World Needs More Purple People Aug 04 2020 #1 New York Times bestseller! Actress, producer, and parent Kristen Bell (*The Good Place*, *Veronica Mars*, *Frozen*) and creative director and parent Benjamin Hart have a new challenge for you and your kids: become a purple person by embracing what makes YOU special while finding common ground with those around you. What is a purple person? Great question. I mean, really great! Because purple people always ask really great questions. They bring their family, friends, and communities together, and they speak up for what's right. They are kind and hardworking, and they love to laugh (especially at Grandpa's funny noises)! A purple person is an everyday superhero! How do you become one? That's the fun part! Penny Purple will lead you through the steps. Get ready to be silly, exercise your curiosity, use your voice, and be inspired. Looking to reach beyond the political divide of red and blue, Kristen Bell and Benjamin Hart have created a hilarious and joyous read-aloud that offers a wonderful message about embracing the things that bring us together as humans. This book will inspire a whole generation to paint the world purple!

Cases and Stories of Transformative Action Research Dec 28 2019 Cases and Stories of Transformative Action Research builds on its companion book, Principles and Methods of Transformative Action Research, by describing and analyzing dozens of examples of successful action research efforts pursued in the past five decades by students and faculty of the Western Institute for Social Research. Some projects are large-scale, and some are modest interventions in the everyday lives of those participating. Some are formal organizational efforts; others are the results of individual or small group initiatives. Included are chapters on community needs assessments and innovative grassroots approaches to program evaluation; the challenges of improving our decision-making during the crisis of the COVID-19 pandemic; strategies of intellectual activism in addressing the growing problem of workplace bullying; action research to preserve and share the history of the Omaha tribe; and plans for an innovative school-based project based on collaborative action-and-inquiry between students and Artificial Intelligence. In addition, there are a number of detailed stories about the use of transformative action research in such areas as somatic and trauma counseling, ethnic studies, health disparities, gender differences, grassroots popular education, and the improvement of statewide steps for preventing child abuse, among many others. This book can serve as an undergraduate or graduate social sciences text on research methods. It is also a guidebook for action-oriented research by academics, professionals, and lay people alike.

The Accidental Bestseller Sep 24 2019 From the USA Today bestselling author of *While We Were Watching Downton Abbey*... Once upon a time four aspiring authors met at their very first writers' conference. Ten years later they're still friends, survivors of the ultra-competitive New York publishing world. Mallory St. James is a workaholic whose bestsellers support a lavish lifestyle. Tanya Mason is a single mother juggling two jobs, two kids, and too many deadlines. Faye Truett is the wife of a famous televangelist and the author of inspirational romances: no one would ever guess her explosive secret. Kendall Aims's once-promising career is on the skids-and so is her marriage. Her sales are dismal, her new editor detests her work-and her husband is cheating. Barely able to think, let alone meet her final deadline, Kendall holes up in a mountain cabin to confront a blank page and a blanker future. But her friends won't let her face this trial alone. Together they collaborate on a novel using their own lives as fodder, assuming no one will ever discover the truth behind their words. No one is more surprised than they are when the book becomes a runaway bestseller. But with success comes scrutiny and scandal...as these four best friends suddenly realize how little they've truly known each other.

Hispanic Student Achievement in Five Learning Areas Nov 06 2020

The World Book Encyclopedia Jun 01 2020 An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students.

Teaching for Experiential Learning Nov 30 2022 This book describes how to change the way in which educators conduct business in the classroom. Our current educational systems lack ways to reach today's learners in relevant, meaningful ways. The five approaches in this book inspire and motivate students to learn. The authors provide in-depth descriptions into these overlapping approaches for experiential learning: active learning, problem-based learning, project-based learning, service learning, and place-based education. Each of these five approaches includes an element of student involvement and attempts to engage students in solving problems. The chapters are presented in a consistent, easy-to-read format that provides descriptions, history, research, ways to use the approach, and resources. This book will help educators transform their classrooms into dynamic learning environments.

Learning Leadership Jun 25 2022 Uncover the extraordinary leader in you with straightforward exercises and advice from two of the world's foremost leadership experts From the bestselling authors of *The Leadership Challenge* and over a dozen award-winning leadership books comes a new book that examines a question of fundamental importance: How do people learn to become leaders? *Learning Leadership: The Five Fundamentals of Becoming an Exemplary Leader* is a comprehensive guide to unleashing the inner leader in us all and to building a solid foundation for a lifetime of leadership growth and mastery. The book offers a concrete framework to help individuals of all levels, functions, and backgrounds take charge of their own leadership development and become the best leaders they can be. Arguing that all individuals are born with the capacity to lead, bestselling authors Kouzes and Posner provide readers with a practical series of actions and specific coaching tips for harnessing that capacity and creating a context in which they can excel. Supported by over 30 years of research, from over seventy countries, and with examples from real-world leaders, *Learning Leadership* is a clarion call to unleash the leadership potential that is already present in society today. *Learning Leadership* provides readers with evidence-based strategies to ignite the habit of continuous improvement and the mindset of becoming the best leaders they can be. Emerging leaders, as well as leadership developers, internal and external coaches and trainers, and other human resource professionals will learn from first-hand stories and practical examples so that they can deeply understand and apply the fundamentals for becoming the best leaders they can be. *Learning Leadership: The Five Fundamentals of Becoming an Exemplary Leader* is divided into digestible bite-sized chapters that encourage daily actions to becoming a better leader. Key takeaways from the book include: Believe in Yourself. Believing in oneself is the essential first step in developing leadership competencies. The best leaders are learners, and they can't achieve mastery until and unless they truly decide that inside them there is a person who can make and difference and learn to be a better leader than they are right now. Aspire to Excel. To become an exemplary leader, people must determine what they care most about and why they want to lead. Leaders with values-based motivations are the most likely to excel. They also must have a clear image of the kind of leader they want to be in the future—and the legacy they want to leave for others. Challenge Yourself. Challenging oneself is critical to learning leadership. Leaders must seek new experiences and test themselves. There will be inevitable setbacks and failures along the way that require curiosity, grit, courage, and resilience to persist in learning and becoming the best. Engage Support. One can't lead alone, and one can't learn alone. It is essential to get support and coaching on the path to achieving excellence. Whether it's family, managers at work, or professional coaches, leaders need the advice, feedback, care, and support of others. Practice Deliberately. No one gets better at anything without continuous practice. Exemplary leaders spend more time practicing than ordinary leaders. Simply being in the role of a leader is insufficient. To achieve mastery, leaders must set improvement goals, participate in designed learning experiences, ask for feedback, and get coaching. They also put in the time every day and make learning leadership a daily habit. Kouzes and Posner offer unrivaled insights into what it means to become an exemplary leader in today's world with their original research and over 30 years of experience studying the practices of extraordinary leadership. They show that anyone can become a better leader if they believe in themselves, aspire to excel, challenge themselves to grow, engage the support of others, and practice deliberately. *Learning Leadership* challenges readers to do the meaningful and disciplined work necessary to becoming the best they can, using a new mindset and toolkit that can make extraordinary things happen. It's not the once-in-a-while transformational acts that demonstrate leadership. It's the little things that one does day in and day out that pave the path to greatness.

How to Teach Now Feb 07 2021 In this book, William Powell and Ochan Kusuma-Powell provide a practical map to navigate some of today's most complicated instructional challenges: How do you help all students succeed when every classroom is, in effect, a global classroom? And what does a successful education look like in a world that is growing smaller and flatter every day? Drawing on research and years of experience in international schools, the authors identify five critical keys to personalizing learning for students who have wildly different cultural, linguistic, and academic backgrounds: * Focus on your students as learners through systematic examination of their cultural and linguistic identities, learning styles and preferences, and readiness. * Focus on yourself as a teacher and investigate your own cultural biases, preferred teaching style and beliefs, and expectations. * Focus on your curriculum to identify transferable concepts that will be valuable and accessible to all students and further

their global competence. * Focus on your assessments to ensure cultural sensitivity and improve the quality of the formative data you gather. * Focus on your collegial relationships so that you can effectively enlist the help of fellow educators with different experiences, backgrounds, skills, and perspectives. The way to teach now is to focus on your students both as individuals and as members of a multifaceted, interdependent community. Here, you'll learn how to design and deliver instruction that prepares students not just to meet standards but to live and work together in our complicated, 21st century world.

It's Hard to Be Five Jan 01 2023 It's hard to be five. Just yelled at my brother. My mind says do one thing. My mouth says another. It's fun to be five! Big changes are here! My body's my car, and I'm licensed to steer. Learning not to hit? Having to wait your turn? Sitting still? It's definitely hard to be five. But Jamie Lee Curtis's encouraging text and Laura Cornell's playful illustrations make the struggles of self-control a little bit easier and a lot more fun! This is the sixth inspired book from the #1 New York Times best-selling team of Today I Feel Silly: & Other Moods That Make My Day and I'm Gonna Like Me: Letting Off a Little Self Esteem.

How People Learn Jan 21 2022 First released in the Spring of 1999, How People Learn has been expanded to show how the theories and insights from the original book can translate into actions and practice, now making a real connection between classroom activities and learning behavior. This edition includes far-reaching suggestions for research that could increase the impact that classroom teaching has on actual learning. Like the original edition, this book offers exciting new research about the mind and the brain that provides answers to a number of compelling questions. When do infants begin to learn? How do experts learn and how is this different from non-experts? What can teachers and schools do-with curricula, classroom settings, and teaching methods--to help children learn most effectively? New evidence from many branches of science has significantly added to our understanding of what it means to know, from the neural processes that occur during learning to the influence of culture on what people see and absorb. How People Learn examines these findings and their implications for what we teach, how we teach it, and how we assess what our children learn. The book uses exemplary teaching to illustrate how approaches based on what we now know result in in-depth learning. This new knowledge calls into question concepts and practices firmly entrenched in our current education system. Topics include: How learning actually changes the physical structure of the brain. How existing knowledge affects what people notice and how they learn. What the thought processes of experts tell us about how to teach. The amazing learning potential of infants.

The relationship of classroom learning and everyday settings of community and workplace. Learning needs and opportunities for teachers. A realistic look at the role of technology in education.

The Daily 5 Dec 20 2021 Describes the philosophy of the Daily 5 teaching structure and includes a collection of literacy tasks for students to complete daily.

The Reading Turn-Around with Emergent Bilinguals Jan 27 2020 This practical resource will help K–6 practitioners grow their literacy practices while also meeting the needs of emergent bilingual learners. Building on the success of The Reading Turn-Around, this book adapts the five-part framework for reading instruction to the specific needs of emergent bilinguals. Designed for teachers who have not specialized in bilingual instruction, the authors provide an accessible introduction to differentiating instruction that focuses on utilizing students' strengths, identities, and cultural backgrounds to foster effective literacy instruction. Chapters include classroom vignettes, teacher exercises, illustrations of powerful reading plans for the student and teacher, resources for culturally and linguistically diverse children's literature, and tools to engage with students' families and communities. "Emergent bilinguals are the fastest growing population in our schools, and this important resource equips literacy educators with tools for providing equitable literacy experiences for emergent bilingual students. The authors have done an exceptional job of presenting their turn-around framework in a way that not only puts forth a vision for effective language and literacy development, but also presents a practical approach for applying the framework in today's multilingual, multicultural classrooms." —Jana Echevarria, professor emerita, California Statute University, Long Beach

The Sand Hill Jan 09 2021 Finally, a delightful book series that helps kids learn phonics rules step by step. Fun books designed for anyone learning to read with phonics, especially learners with dyslexia. Start anywhere in the series, according to your child's reading level. All DOG ON A LOG Books follow a Structure Literacy/Orton-Gillingham based phonics sequence.

Five Ways of Being Dec 08 2020 "A traditional leadership model in a traditional education setting involves a heavy focus on curriculum, resources, strategy, and structure. It is more often about the materials than the learning. With Five Ways of Being: What Learning Leaders Think, Do, and Say Every Day, authors Jane Danvers, Heather De Blasio, and Gavin Grift strive to reinvent the mindset of leadership and help leaders focus more on developing people and giving them the tools they need to effect real change as leaders themselves. They believe that leadership is not about doing but about being. Each chapter of the book outlines one of five ways of being—from forming trusting relationships to being intentional with thought and action -that can help leaders develop a mindset and lifestyle of learning-based leadership. Five Ways of Being is the complete guide to transforming leaders into Learning Leaders who want to see those around them learn and grow with every step they take"--

Baby Play for Every Day Jul 03 2020 Hundreds of great ideas for making the most of time with your baby! Banish boredom and the blues, encourage your baby's development, and have fun being a parent. This irresistible ebook contains an inspiring idea for every single day of your baby's first year, with age-appropriate baby games and activities for babies from 0 to 12 months, plus great advice and creative ideas for moms and dads. Follow it day-by-day or dip in and out when the mood strikes you.

Facilitating the Integration of Learning May 13 2021 Students' ability to integrate learning across contexts is a critical outcome for higher education. Often the most powerful learning experiences that students report from their college years are those that prompt integration of learning, yet it remains an outcome that few educators explicitly work towards or specify as a course objective. Given that students will be more successful in college (and in life) if they can integrate their learning, James Barber offers a guide for college educators on how to promote students' integration of learning, and help them connect knowledge and insights across contexts, whether in-class or out-of-class, in co-curricular activities, or across courses and disciplinary boundaries. The opening chapters lay the foundation for the book, defining what integration of learning is, how to promote it and students' capacities for reflection; and introduce the author's research-based Integration of Learning (IOL) model. The second section of the book provides practical, real-world strategies for facilitating integration of learning that college educators can use right away in multiple learning contexts. James Barber describes practices that readers can integrate as appropriate in their classes or activities, under chapters respectively devoted to Mentoring, Writing as Praxis, Juxtaposition, Hands-On Experiences, and Diversity and Identity. The author concludes by outlining how to apply IOL to a multiplicity of settings, such as a major, a single course, programming for a student organization, or other co-curricular experience; as well as offering guidance on assessing and documenting students' mastery of this outcome. This book is addressed to a wide range of educators engaged with college student learning, from faculty to student affairs administrators, athletic coaches, internship supervisors, or anyone concerned with student development.

I'm Gonna Like Me Sep 16 2021 From the #1 New York Times bestselling team of Jamie Lee Curtis and Laura Cornell, creators of Today I Feel Silly and Where Do Balloons Go?, comes I'm Gonna Like Me, a funny and moving celebration of self-esteem and loving the skin you're in. Celebrate liking yourself! Through alternating points of view, a girl's and a boy's, Jamie Lee Curtis's triumphant text and Laura Cornell's lively artwork show kids that the key to feeling good is liking yourself because you are you. A book to rejoice in and share, I'm Gonna Like Me will have kids letting off some self-esteem in no time!

Chad The Cat Feb 19 2022 Finally, a delightful book series that helps kids learn phonics rules step by step. Fun books designed for anyone learning to read with phonics, especially learners with dyslexia. Start anywhere in the series, according to your child's reading level. All DOG ON A LOG Books follow a Structured Literacy/Orton-Gillingham based phonics sequence.

Free to Learn Mar 11 2021 If you're eager to share the wonders of life in the real world with your children, to help them explore a world larger and more exciting than school's four walls and rigid programs can offer, let me share my unschooling experience with you. Thinking about homeschooling? Curious about unschooling? Walk with me as I share the five paradigm-changing ideas about learning and living that freed my family from the school schedule. With over ten years of experience, I have come to see how key these ideas were, and still are, to our unschooling lives. With stories, examples, and clear language, Free to Learn explores the depth and potential of unschooling. Learning freely, living joyfully.

Using Brainpower in the Classroom Mar 23 2022 This book offers a realistic, practical and accessible model to allow teachers to incorporate the best of recent brain-based research into their teaching. The five steps involve: making learning multi-sensory ensuring activities match the dominant intelligence of the learner matching types of learning to the gender of pupils using the lesson structure to fit the natural attention span of the brain managing the classroom environment to make it brain-friendly and active in supporting learning. Illustrated throughout with classroom examples from a wide range of subject areas, the book is highly practical in its focus and the ideas it contains can easily be adapted to work with all age ranges and types of school.

Developing Natural Curiosity through Project-Based Learning Jul 15 2021 Developing Natural Curiosity through Project-Based Learning is a practical guide that provides step-by-step instructions for PreK–3 teachers interested in embedding project-based learning (PBL) into their daily classroom routine. The book spells out the five steps teachers can use to create authentic PBL challenges for their learners and illustrates exactly what that looks like in an early childhood classroom. Authentic project-based learning experiences engage children in the mastery of twenty-first-century skills and state standards to empower them as learners, making an understanding of PBL vital for PreK–3 teachers everywhere.

Hispanic Student Achievement in Five Learning Areas, 1971-75 Oct 06 2020

Clarity for Learning Sep 28 2022 An essential resource for student and teacher clarity With the ever-changing landscape of education, teachers and leaders often find themselves searching for clarity in a sea of standards, curriculum resources, and competing priorities. Clarity for Learning offers a simple and doable approach to developing clarity and sharing it with students through five essential components: crafting learning intentions and success criteria co-constructing learning intentions and success criteria with learners creating opportunities for students to respond effective feedback on and for learning students and teachers sharing learning and progress The book is full of examples from teachers and leaders who have shared their journey, struggles, and successes for readers to use to propel their own work forward.

Strengths-Based Teaching and Learning in Mathematics Nov 18 2021 "This book is a game changer! Strengths-Based Teaching and Learning in Mathematics: 5 Teaching Turnarounds for Grades K- 6 goes beyond simply providing information by sharing a pathway for changing practice. . . Focusing on our students' strengths should be routine and can be lost in the day-to-day teaching demands. A teacher using these approaches can change the trajectory of students' lives forever. All teachers need this resource! Connie S. Schrock Emporia State University National Council of Supervisors of Mathematics President, 2017-2019 NEW COVID RESOURCES ADDED: A Parent's Toolkit to Strengths-Based Learning in Math is now available on the book's companion website to support families engaged in math learning at home. This toolkit provides a variety of home-based activities and games for families to engage in together. Your game plan for unlocking mathematics by focusing on students' strengths. We often evaluate student thinking and their work from a deficit point of view, particularly in mathematics, where many teachers have been taught that their role is to diagnose and eradicate students' misconceptions. But what if instead of focusing on what students don't know or haven't mastered, we identify their mathematical strengths and build next instructional steps on students' points of power? Beth McCord Kobett and Karen S. Karp answer this question and others by highlighting five key teaching turnarounds for improving students' mathematics learning: identify teaching strengths, discover and leverage students' strengths, design instruction from a strengths-based perspective, help students identify their points of power, and promote strengths in the school community and at home. Each chapter provides opportunities to stop and consider current practice, reflect, and transfer practice while also sharing · Downloadable resources, activities, and tools · Examples of student work within Grades K–6 · Real teachers' notes and reflections for discussion It's time to turn around our approach to mathematics instruction, end deficit thinking, and nurture each student's mathematical strengths by emphasizing what makes them each unique and powerful.

Child Development in Practice Apr 23 2022 How should children feel about themselves and their learning? How do I know what children have learnt and how can I move them on? How can I ensure that resources are available for children to use actively and independently? In today's busy setting an understanding of child development sometimes gets overlooked, yet it lies at the heart of effective practice. Child Development in Practice provides an approachable, user-friendly base from which to plan ways of working with children that are developmentally appropriate and will enable them to learn enjoyably and effectively. Drawing on recent research, the book thoughtfully discusses sound principles of child development alongside descriptions of every day practice. It then offers practical advice on how to fully utilise the key areas in an early years setting, including the creative area, books and stories and the outside, and shows how to plan and implement integrated topics where teaching is cross-curricular and holistic. Throughout, a series of key questions are presented to encourage practitioners to reflect on why they are teaching in certain ways and increase their understanding of children's developmental needs. Directly linking theory and practice, this book aims to give students and practitioners the knowledge and confidence they need to help children become active, interactive and independent learners.

Five Types of Learning May 25 2022 The late Dr. Donald E. Carlone taught at the University of ColoradoBoulder, where he imparted timeless wisdom unto his students focusing on K-12 education. He emphasized five types of learning: sensory experience learning, memory, motor learning, problem solving/critical thinking, and social-emotional learning. In Five Types of Learning, one of Carlone's former students Carole Bogue, Ph.D. presents the philosophy and thinking behind each type of learning, drawing on Carlone's material and lectures that he delivered in a wonderful, storytelling manner. Bogue also reviews the recent literature in the five areas of learning and how to facilitate them. She finds significant support for Carlone's viewpoints and suggests effective strategies conducive to student learning in light of recent research. In addition to Timeless Wisdom sections in which she presents Carlone's description of each type of learning, she includes application exercises drawn from her mentors' material. Throughout the book, readers will find thought-provoking questions and discussion items designed to generate deliberation about the types of learning. Whether you're a college instructor, aspiring teacher, practicing teacher, school administrator or parent, you'll find guidance to help students succeed in this book.

Play = Learning Sep 04 2020 In Play=Learning, top experts in child development and learning contend that in over-emphasizing academic achievement, our culture has forgotten about the importance of play for children's development.

Sight Words: a, are, goes, he, into, is, of, OK, says, see, sees, should, the, their, there, they, to, we, you, your Approximately 165 total words This is a Step 5 Let's GO! book. The DOG ON A LOG Books series are for phonics readers and folks with a dyslexic learning style. The words used reflect the inclusion of 1 to 3 new phonics rules in each step. There are five books at each step. The chapter books are written in a chapter format with one picture in most chapters. They are longer, have more detail, and sometimes offer more complexity than the Let's GO! Books. They're great for practicing known and new phonics rules. They're also just fun reading. DOG ON A LOG Let's GO! Books are shorter versions of DOG ON A LOG Chapter books. Let's GO! books tell the same stories with about 8 pictures and only a few sentences per page. They're perfect as an introduction to the new phonics rules or simply for fun reading for younger kids. DOG ON A LOG Phonics Progression Step 1 Consonants, primary sounds Short vowels Digraphs: ch, sh, th, wh, ck 2 and 3 sound words Possessive 's Step 2 Bonus letters (f, l, s, z after short vowel) "all" -s suffix Step 3 ang, ing, ong, ung, ank, ink, onk, unk Step 4 Consonant Blends to make 4 sound words 3 and 4 sound words ending in -lk, -sk Step 5 Digraph blends -nch to make 3 and 4 sound words Silent e WATCH FOR MORE STEPS COMING SOON

Nurturing the Whole Student Aug 28 2022 Nurturing the Whole Student: Five Dimensions of Teaching and Learning begins with the assumption that education is at its best—healthiest, most engaging, and most effective—when it is holistic.

Five Teaching and Learning Myths—Debunked Oct 30 2022 Drawing from research in developmental and educational psychology, cognitive science, and the learning sciences, Five Teaching and Learning Myths—Debunked addresses some of the most commonly misunderstood educational and cognitive concerns in teaching and learning. Multitasking, problem-solving, attention, testing, and learning styles are all integral to student achievement but, in practice, are often muddled by pervasive myths. In a straightforward, easily digestible format, this book unpacks the evidence for or against each myth, explains the issues concisely and with credible evidence, and provides busy K-12 teachers with actionable strategies for their classrooms and lesson plans.

Look, Listen, Taste, Touch, and Smell Feb 28 2020 An introduction to the five senses and the organs that perform the functions of sight, hearing, smell, taste and touch.
