Disrupting the Bystander Apr 11 2021 We were not prepared for #metoo when it blew up Twitter in October 2017. In many ways, we still aren't. What do we do when we learn a friend has been harmed? And what does it mean to be a good friend when someone we love caused the harm? We live in a society that confines survivors to silence. Our only avenues to address harm do little to prevent its recurrence. Trapped within a binary of silence or punishment, it's no wonder so many of us remain paralyzed even as the disclosures continue. Punishment requires both

certainty and authority, which most bystanders lack. But once the silence has been broken, we can't return to it. Few of us are strangers to the nagging feeling that arises within that paralysis. We intuit--correctly--that we have some kind of responsibility when harm happens in our communities, but what is it? And if we have responsibility, do we have rights? Combining behavioral neuroscience and insights from those on the frontlines of harm intervention, *Disrupting the Bystander* helps us break out of paralysis so that we can best support those we love--whether they were hurt or hurt someone else.

Brahms Among Friends Oct 18 2021 *Brahms Among Friends* identifies patterns of listening, performance, and composition among close friends of Johannes Brahms and explores how those patterns informed the creation and reception of his music in the intimate genres of song, sonata, trio, and piano miniature. Among the tangled threads of counterpoint and circumstance that bound Brahms to his acquaintances was the technique of allusive musical borrowing, whereby a brief passage from a familiar work was drawn into the fabric of a new composition. For the specific listeners whose habits of mind and musicianship he knew best, allusive borrowings could become rhetorically charged gestures, persuasively revising the meanings his music conveyed and the interpretive strategies it invited. Primary documents, original manuscripts, music-analytic comparison, and kinesthetic parameters experienced in the act of performance all work in tandem to support ten case studies in the interplay between Brahms's small-scale works and the women and men who encountered them before publication. Central characters include violinist Joseph Joachim, singers Amalie Joachim, Julius

Stockhausen, and Agathe von Siebold, composers Heinrich and Elisabeth von Herzogenberg, and pianists Emma Engelmann and Clara Schumann. For these musicians and for the composer himself, Brahms's allusive music served a broad variety of emotional needs and interpersonal ends. Yet across diverse repertoire and interdisciplinary correlates ranging from ethnography to psychoanalysis, each case study furthers a single, underlying aim: to reconstruct the mutually dependent perspectives of historically situated agents and restore forgotten features of their communicative landscapes as bases for both musical and historical scrutiny.

Conversational Style Apr 23 2022 This revised edition of Deborah Tannen's first discourse analysis book, *Conversational Style*--first published in 1984--presents an approach to analyzing conversation that later became the hallmark and foundation of her extensive body of work in discourse analysis, including the monograph *Talking Voices*, as well as her well-known popular books *You Just Don't Understand*, *That's Not What I Meant!*, and *Talking from 9 to 5*, among others. Carefully examining the

discourse of six speakers over the course of a two-and-a-half hour Thanksgiving dinner conversation, Tannen analyzes the features that make up the speakers' conversational styles, and in particular how aspects of what she calls a 'high-involvement style' have a positive effect when used with others who share the style, but a negative effect with those whose styles differ. This revised edition includes a new preface and an afterword in which Tannen discusses the book's place in the evolution of her work.

Conversational Style is written in an accessible and non-technical style that should appeal to scholars and students of discourse analysis (in fields like linguistics, anthropology, communication, sociology, and psychology) as well as general readers fascinated by Tannen's popular work. This book is an ideal text for use in introductory classes in linguistics and discourse analysis.

Between Friends Jul 03 2020 Winner of the National Jewish Book Award: A "gorgeous, rueful collection of eight linked stories" capturing the collective dreams of Israel in the 1950s (Chicago Tribune). These eight interconnected stories, set in the fictitious Kibbutz Yekhat, draw masterful profiles of idealistic men and women enduring personal hardships in the shadow of one of the greatest collective dreams of the twentieth century. A devoted father who fails to challenge his daughter's lover, an old friend, a man his own age; an elderly gardener who carries on his shoulders

the sorrows of the world; a woman writing perversely poignant letters to her husband's mistress. Each of these stories is a luminous human and literary study; together they offer an eloquent portrait of an idea, and of a charged and fascinating epoch. Award-winning writer Amos Oz, who spent three decades living on a kibbutz, is at home and at his best in this "lucid and heartbreaking" award-winning collection (The Guardian). "Oz lifts the veil on kibbutz existence without palaver. His pinpoint descriptions are pared to perfection . . . His people twitch with life." "The Scotsman" "A collection of stories . . . that boasts the sense, scope and unity of a novel . . . Breathtaking." "Irish Examiner" "A complex and melancholic vision of people struggling to transcend their individuality for the sake of mundanely idealist goals." "The Times Literary Supplement

From Neurons to Neighborhoods Jun 01 2020 How we raise young children is one of today's most highly personalized and sharply politicized issues, in part because each of us can claim some level of "expertise." The debate has intensified as discoveries about our development-in the womb and in the first months and years-have reached the popular media. How can we use our burgeoning knowledge to assure the well-being of all young children, for their own sake as well as for the sake of our nation? Drawing from new findings, this book presents important conclusions about nature-versus-nurture, the impact of being born into a working family, the effect of politics on programs for children, the costs and benefits of intervention, and other issues. The committee issues a series of challenges to decision makers regarding the quality of child care, issues of racial and ethnic diversity, the integration of children's cognitive and emotional development, and more. Authoritative yet accessible, From Neurons to Neighborhoods presents the evidence about "brain wiring" and how kids learn to speak, think, and regulate their

behavior. It examines the effect of the climate-family, child care, community-within which the child grows.

Friends Divided Feb 28 2020 A New York Times Book Review Notable Book of 2017 From the great historian of the American Revolution, New York Times-bestselling and Pulitzer-winning Gordon Wood, comes a majestic dual biography of two of America's most enduringly fascinating figures, whose partnership helped birth a nation, and whose subsequent falling out did much to fix its course. Thomas Jefferson and John Adams could scarcely have come from more different worlds, or been more different in temperament. Jefferson, the optimist with enough faith in the innate goodness of his fellow man to be democracy's champion, was an aristocratic Southern slaveowner, while Adams, the overachiever from New England's rising middling classes, painfully aware he was no aristocrat, was a skeptic about popular rule and a defender of a more elitist view of government. They worked closely in the crucible of revolution, crafting the Declaration of Independence and leading, with Franklin, the diplomatic effort that brought France into the fight. But ultimately, their profound differences would lead to a fundamental crisis, in their friendship and in the nation writ large, as they became the figureheads of two entirely new forces, the first American political parties. It was a bitter breach, lasting through the presidential administrations of both men, and beyond. But late in life, something remarkable happened: these two men were nudged into reconciliation. What started as a grudging trickle of correspondence became a great flood, and a friendship was rekindled, over the course of hundreds of letters. In their final years they were the last surviving founding fathers and cherished their role in this mighty young republic as it approached the half century mark in 1826. At last, on the afternoon of July 4th, 50 years to the day after the signing of the Declaration, Adams let out a sigh and said, "At least Jefferson still lives." He

died soon thereafter. In fact, a few hours earlier on that same day, far to the south in his home in Monticello, Jefferson died as well. Arguably no relationship in this country's history carries as much freight as that of John Adams of Massachusetts and Thomas Jefferson of Virginia. Gordon Wood has more than done justice to these entwined lives and their meaning; he has written a magnificent new addition to America's collective story.

Big Friendship Sep 24 2019 A close friendship is one of the most influential and important relationships a human life can contain. Anyone will tell you that! But for all the rosy sentiments surrounding friendship, most people don't talk much about what it really takes to stay close for the long haul. Now two friends, Aminatou Sow and Ann Friedman, tell the story of their equally messy and life-affirming Big Friendship in this honest and hilarious book that chronicles their first decade in one another's lives. As the hosts of the hit podcast Call Your Girlfriend, they've become known for frank and intimate conversations. In this book, they bring that energy to their own friendship—its joys and its pitfalls. Aminatou and Ann define Big Friendship as a strong, significant bond that transcends life phases, geographical locations, and emotional shifts. And they should know: the two have had moments of charmed bliss and deep frustration, of profound connection and gut-wrenching alienation. They have weathered life-threatening health scares, getting fired from their dream jobs, and one unfortunate Thanksgiving dinner eaten in a car in a parking lot in Rancho Cucamonga. Through interviews with friends and experts, they have come to understand that their struggles are not unique. And that the most important part of a Big Friendship is making the decision to invest in one another again and again. An inspiring and entertaining testament to the power of society's most underappreciated relationship, Big Friendship will invite you to think about how your own bonds are formed, challenged, and

preserved. It is a call to value your friendships in all of their complexity. Actively choose them. And, sometimes, fight for them.

First among Friends Aug 28 2022 In *First Among Friends*, the first scholarly biography of George Fox (1624-91), H. Larry Ingle examines the fascinating life of the reformation leader and founding organizer of the Religious Society of Friends, more popularly known today as the Quakers. Ingle places Fox within the upheavals of the English Civil Wars, Revolution, and Restoration, showing him and his band of "rude" disciples challenging the status quo, particularly during the Cromwellian Interregnum. Unlike leaders of similar groups, Fox responded to the conservatism of the Stuart restoration by facing down challenges from internal dissidents, and leading his followers to persevere until the 1689 Act of Toleration. It was this same sense of perseverance that helped the Quakers to survive and remain the only religious sect of the era still existing today. This insightful study uses broad research in contemporary manuscripts and pamphlets, many never examined systematically before. Firmly grounded in primary sources and enriched with gripping detail, this well-written and original study reveals unknown sides of one who was clearly "First Among Friends."

Inventing Ireland Nov 26 2019 Kiberd - one of Ireland's leading critics and a central figure in the FIELD DAY group with Brian Friel, Seamus Deane and the actor Stephen Rea - argues that the Irish Literary Revival of the 1890-1922 period embodied a spirit and a revolutionary, generous vision of Irishness that is still relevant to post-colonial Ireland. This is the perspective from which he views Irish culture. His history of Irish writing covers Yeats, Lady Gregory, Synge, O'Casey, Joyce, Beckett, Flann O'Brien, Elizabeth Bowen, Heaney, Friel and younger writers down to Roddy Doyle.

Fly Girls Jan 27 2020 From NPR correspondent Keith O' Brien comes this thrilling Young Readers' edition of the untold story about pioneering women, including Amelia Earhart, who fought to

compete against men in the high-stakes national air races of the 1920s and 1930s--and won. In the years between World War I and World War II, airplane racing was one of the most popular sports in America. Thousands of fans flocked to multiday events, and the pilots who competed in these races were hailed as heroes. Well, the male pilots were hailed. Women who flew planes were often ridiculed by the press, and initially they weren't invited to race. Yet a group of women were determined to take to the sky--no matter what. With guts and grit, they overcame incredible odds both on the ground and in the air to pursue their dreams of flying and racing planes. Fly Girls follows the stories of five remarkable women: Florence Klingensmith, a high school dropout from North Dakota; Ruth Elder, an Alabama housewife; Amelia Earhart, the most famous, but not necessarily the most skilled; Ruth Nichols, a daughter of Wall Street wealth who longed to live a life of her own; and Louise Thaden, who got her start selling coal in Wichita. Together, they fought for the chance to race against the men--and in 1936 one of them would triumph in the toughest race of all. Complete with photographs and a glossary, Fly Girls celebrates a little-known slice of history wherein tenacious, trail-blazing women braved all obstacles to achieve greatness.

Wells-Barnett (1862-1928) fought to end discrimination and the terrible crime of lynching and helped found the NAACP, but became known as a difficult woman for her refusal to compromise and was largely lost in the annals of history. *Gertrude Bell (1868-1926) had a passion for archaeology and languages, and left her privileged world behind to become one of the foremost chroniclers of British imperialism in the Middle East, and one of the architects of the modern nation of Iraq.

Mortality, with Friends Mar 30 2020 Mortality, With Friends is a collection of lyrical essays from Fleda Brown, a writer and caretaker, of her father and sometimes her husband, who lives with the nagging uneasiness that her cancer could return. Memoir in feel, the book muses on the nature of art, of sculpture, of the loss of bees and trees, the end of marriages, and among other things, the loss of hearing and of life itself. Containing twenty-two essays, Mortality, With Friends follows the cascade of loss with the author's imminent joy in opening a path to track her own growing awareness and wisdom. In "Donna," Brown examines a childhood friendship and questions the roles we need to play in each other's lives to shape who we might become. In "Native Bees," Brown expertly weaves together the threads of a difficult family tradition intended to incite happiness with the harsh reality of current events. In "Fingernails, Toenails," she marvels at the attention and suffering that accompanies caring for our aging bodies. In "Mortality, with Friends," Brown dives into the practical and stupefying response to her own cancer and survival. In "2019: Becoming Mrs. Ramsay," she remembers the ghosts of her family and the strident image of herself, positioned in front of her Northern Michigan cottage. Comparable to Lia Purpura's essays in their density and poetics, Brown's intent is to look closely, to stay with the moment and the image. Readers with a fondness for

memoir and appreciation for art will be dazzled by the beauty of this collection.

Among friends? May 01 2020 Relationships are the glue that holds the world together. As the author shows, this common belief applies to ancient Greece as much as to contemporary Aotearoa New Zealand. Based on long-term ethnographic fieldwork, this anthropological study dedicates itself to the topic of friendship – this flexible type of sociality that has become increasingly significant in people's lives throughout the world. At the core stand the friendship conceptions and life-worlds of Maori and Pakeha actors in New Zealand. By tracing out people's "friendship worlds" in their wider societal context, the author takes up current debates surrounding issues of identity and sociality, indigeneity and diversity. By furthering our understanding of the social dynamics of friendship in New Zealand, the study not only contributes to the growing field of friendship research, it also reveals important implications for the understanding of group relations in a postcolonial, so-called "multicultural" society.

Murder Among Friends May 25 2022 How did two teenagers brutally murder an innocent child...and why? And how did their brilliant lawyer save them from the death penalty in 1920s Chicago? Written by a prolific master of narrative nonfiction, this is a compulsively readable true-crime story based on an event dubbed the "crime of the century." In 1924, eighteen-year-old college students Nathan Leopold and Richard Loeb made a decision: they would commit the perfect crime by kidnapping and murdering a child they both knew. But they made one crucial error: as they were disposing of the body of young Bobby Franks, whom they had bludgeoned to death, Nathan's eyeglasses fell from his jacket pocket. Multi-award-winning author Candace Fleming depicts every twist and turn of this harrowing case--how two wealthy, brilliant young men planned and committed what became known as the crime of the century, how they were caught, why they confessed, and how the renowned criminal defense attorney Clarence Darrow enabled them to avoid the death penalty. Following on the success of such books as *The Rise and Fall of Charles Lindbergh* and *The Family Romanov*, this acclaimed nonfiction writer brings to heart-stopping life one of the most notorious crimes in our country's history.
