IBM z/OS Mainframe Security and Audit Management Using the IBM Security zSecure Suite Sep 19 2021 Every organization has a core set of mission-critical data that must be protected. Security lapses and failures are not simply disruptions—they can be catastrophic events, and the consequences can be felt across the entire organization. As a result, security administrators face serious challenges in protecting the company's sensitive data. IT staff are challenged to provide detailed audit and controls documentation at a time when they are already facing increasing demands on their time, due to events such as mergers, reorganizations, and other changes. Many organizations do not have enough experienced mainframe security administrators to meet these objectives, and expanding employee skillsets with low-level mainframe security technologies can be time-consuming. The IBM® Security zSecure suite consists of multiple components designed to help you administer your mainframe security server, monitor for threats, audit usage and configurations, and enforce policy

compliance. Administration, provisioning, and management components can significantly reduce administration, contributing to improved productivity, faster response time, and reduced training time needed for new administrators. This IBM Redbooks® publication is a valuable resource for security officers, administrators, and architects who wish to better understand their mainframe security solutions.

Jaguar X-Type – 2001 to 2009 Jan 04 2023 The essential guide to the Jaguar X-Type – the first ‘baby’ Jaguar ever produced. The X-Type catered for an entirely new market for Jaguar, and proved highly successful. Covering all the models from this period, this guide provides you with all the procedures necessary to ensure the car you are looking at is actually what it appears to be. Close study and careful inspection are vital with the X-Type, and this guide identifies some of the pitfalls to avoid, helps you decide on exactly how and where to buy, and shows how to get the best possible car you can for your money. This is the only title available on the X-Type models – the ultimate pocket guide to read, digest and keep with you at all times.

Logic Pro X - How It Works May 04 2020 "Logic Pro X - How it Works" from the GEM series (Graphically Enhanced Manuals) explains Apple's popular music production application "Logic Pro" with rich illustrations and diagrams that are not found in any other manual. This 362 pages letter size book presents this software application in great detail with that easy to understand, visual approach.- What are Graphically Enhanced Manuals (GEM)? They're a new type of manual with a visual approach that helps you UNDERSTAND a program, not just LEARN it. No need to read through 500 of pages of dry text explanations. Rich graphics and diagrams help you to get that "aha" effect and make it easy to comprehend difficult concepts. The Graphically Enhanced Manuals help you master a program much faster with a much deeper understanding of concepts, features and workflows in a very intuitive way that is easy to understand.

CONCUR 2006 - Concurrency Theory Dec 31 2019 This book constitutes the refereed proceedings of the 17th International Conference on Concurrency Theory, CONCUR 2006, held in Bonn, Germany in August 2006. The 29 revised full papers presented together with 5 invited papers were carefully reviewed and selected from 101 submissions. The papers are organized in topical sections on model checking, process calculi, minimization and equivalence checking, types, semantics, probability, bisimulation and simulation, real time, and formal languages.

Saving Jaguar May 16 2021 This book tells the story of how John Egan gradually overcame the odds and, piece by piece, rebuilt this great company, winning over the workforce, the overseas dealers and, most important of all, the customers. Working with Margaret Thatcher and her Government, Egan and his team of managers overcame every obstacle, every set-back, every challenge. Again and again, it looked impossible. Yet using innovative techniques, intelligence, eloquence, openness, motor racing and much more, they saved this most charismatic company which has created some of the finest and most loved motor cars of all time. It is an amazing story that will appeal equally to car enthusiasts, those in business and readers interested in social history.

Extreme Ownership Sep 07 2020 An updated edition of the blockbuster bestselling leadership book that took America and the world by storm, two U.S. Navy SEAL officers who led the most highly decorated special operations unit of the Iraq War demonstrate how to apply powerful leadership principles from the battlefield to business and life. Sent to the most violent battlefield in Iraq, Jocko Willink and Leif Babin's SEAL task unit faced a seemingly impossible mission: help U.S. forces secure Ramadi, a city deemed "all but lost." In gripping firsthand accounts of heroism, tragic loss, and hard-won victories in SEAL Team Three's Task Unit Bruiser, they learned that leadership—at every level—is the most important factor in whether a team succeeds or fails. Willink and Babin returned home from deployment and instituted SEAL leadership training that helped forge the next generation of SEAL leaders. After departing the SEAL Teams, they launched Echelon Front, a company that teaches these same leadership principles to businesses and organizations. From promising startups to Fortune 500 companies, Babin and Willink have helped scores of clients across a broad range of industries build their own high-performance teams and dominate their battlefields. Now, detailing the mind-set and principles that enable SEAL units to accomplish the most difficult missions in combat, *Extreme Ownership* shows how to

apply them to any team, family or organization. Each chapter focuses on a specific topic such as Cover and Move, Decentralized Command, and Leading Up the Chain, explaining what they are, why they are important, and how to implement them in any leadership environment. A compelling narrative with powerful instruction and direct application, Extreme Ownership revolutionizes business management and challenges leaders everywhere to fulfill their ultimate purpose: lead and win.

Japan Real Estate Investment Nov 02 2022 From her long experience, research, and talks with international real estate investors, analysts, and marketing executives, Dr. Hines identifies succinctly and precisely the differences between investing in Japanese real estate and real estate elsewhere--the crucial differences that real estate professionals must know and understand. The only up-to-date book in English on the subtleties of the real estate investment enterprise in Japan, her book shows how the Japanese economic environment is having its effect on real estate there, how foreign investors are influencing the value of property and the systems to analyze it, and why the financing of real estate in Japan through loan and equity securitization is on the rise. Her book will be especially valuable to international real estate professionals, but also to corporate decision makers in international finance, banking, and investment, as well as to economists and public policy specialists throughout the field of global business.

Tramp Ships Jan 30 2020 With 300 stunning photographs, this pictorial history of tramp trade ships illustrates the evolution of these charming, itinerant merchant vessels. The tramp ship was the taxi of the seas. With no regular schedules, it voyaged anywhere and everywhere, picking up and dropping off cargoes, mainly bulk cargoes such as coal, grain, timber, china clay and oil. Older and slower vessels tended to find their way into this trade, hence the tag 'tramp'—but new tramps were also built for the purpose. In this beautiful volume featuring 300 photographs, Roy Fenton illustrates the Tramp Ship's evolution over the course of more than 100 years, from the 1860s, when the steam tramp developed from the screw collier, until it was largely replaced by the specialist bulk carrier in the 1980s. Fenton offers fascinating background information on the design and building of tramps. He describes the machinery, from simple triple-expansion turbines to diesel engines. Their operation and management and the life of the officers and crews are also covered. This illustrated history journeys through the

last years of the 19th century, the two world wars, and the postwar years. Photo captions provide each ship's dimensions, owners, and builder. Each ship's career is outlined with notes on trades and how they changed over a ship's lifetime.

Why Smart Companies Do Dumb Things Sep 27 2019 This book rocks with practical and perceptive candor, and down-to-earth advice. Any company can improve its new product marketing and financial success batting average by adopting Cal's principles.- PETER KLEIN, Senior Vice President for Strategy and Development, Gillette Company To the point with real examples of how shareholder value can be severely hampered by an undisciplined new product process. A must-read for insiders and outsiders.- RICHARD P. KUNDRAT, Founder, Pepsi-Lipton Partnership Innovation is the lifeblood of American business. Without the creativity to find the next must-have product or service, companies quickly lose their competitive edge. Knowing this, corporate leaders invest heavily in research and development. Notwithstanding the dollars spent on R & D, the fact remains that better than 90 percent of innovation initiatives fail to achieve their return-on-investment targets. Poor management decisions and lack of marketplace savvy often undermine even huge research efforts. Can America continue to be a formidable global competitor with this kind of failure rate? Taking a case history approach, Calvin Hodock examines eight typical innovation blunders that continually doom new product development. From misjudging the market and dead-on-arrival products to fatal frugality and timetable tyranny, he discusses not only why such mistakes occur but also the dire consequences to both investors and employees. When Polaroid declared bankruptcy, because it missed the digital imaging trend, the company's employees lost their retirement and pension benefits. Now the failure of the American automobile industry to create gotta have cars threatens to wreak long-term havoc in a large segment of American workers. Among the problems Hodock points to are breakdowns in the marketing research process, marketing dishonesty, lack of real-world preparation among newly graduated MBAs, CEOs under pressure to deliver unrealistic earning targets, clueless boards of directors, and the general absence of accountability. After analyzing each problem, Hodock emphasizes the lesson learned and concludes with a list of best practices for successful innovation. He shows how even modest improvements in the innovation process can double the bottom line for any company while making their shareholders more prosperous and happier. Hodock's incisive analysis and illuminating new approaches to successful development and marketing are must reading for students of business, seasoned corporate executives, and anyone interested in the future of American business. FURTHER PRAISE FOR WHY SMART COMPANIES ... Why is what is obvious ignored so frequently? Find out in this book that case by case takes you through the highs and lows and even the in-betweens of innovation as an engine of company growth and shareholder prosperity.- JAMES FIGURA, Vice President, Consumer Insights, Colgate-Palmolive Useful information for every customer and business leader. Real-life case histories reveal why innovations fail and firmly establish the importance of integrity.- DOUG SCOTT, CEO and President, Platinum Television Group, New Line Media Solutions Calvin L.

Hodock (Skillman, NJ) is professor of marketing at Berkeley College, Garret Mountain and Middlesex Campuses, an adjunct professor at New York University's Stern School of Business, and a guest lecturer at the University of Pennsylvania's Wharton School of Business. He is the former chairman of the board of the American Marketing Association, the world's largest professional marketing society. He is also on the board of directors for NuVim, Inc. He has previously published for the American Marketing Association, McGraw-Hill, and the Advertising Research Foundation.

A Research Agenda for Family Business Aug 07 2020 This exciting Research Agenda expertly addresses the question: What will be important within the family business field and for family businesses in practice over the next decade? Top international contributors explore farsighted theories, methods and topics, often taking a multi-disciplinary approach in order to outline the potential routes for further advancing family business research. Chapters cover the significance of new family trends, entrepreneurial legacy, board diversity, spatial-familiness, corruption, innovation and digital business transformation, challenging core assumptions surrounding the family business phenomenon and mapping the future of the discipline.

Shipbroking and Chartering Practice Apr 14 2021

The Momentum Effect Aug 26 2019 One of the most frequent challenges that managers and executives face today is: 'How do I keep on growing and at the same time, make a profit?' Based on the author's extensive research on over 350 Fortune 1000 Firms, The Momentum Effect proves that the old method of spending big on marketing and slashing the manufacturing costs doesn't work anymore. Instead, it provides new evidence to show that in order to achieve profitable growth you have to create new value for customers through innovation, ingenuity and most importantly by seeing things from a customer perspective. This strategy generates a positive, reinforcing momentum which leads to further growth. Why limit your business growth? With Momentum, you won't have to.

Shipbroking and Chartering Practice May 28 2022 Now in its eighth edition, this classic text is a first point of reference for anyone looking to obtain an understanding of chartering and shipbroking practice. It provides hands-on, commercially-focused explanations of chartering business and invaluable advice on how the shipping market operates across a broad range of topics. The authors also deal expertly with the legal, financial, operational and managerial aspects of chartering, offering numerous case studies which clearly link theory to practice. This new edition has been fully revised and updated to reflect the current trends in chartering practice, legal developments and standard forms of charterparties. New to this edition: Enriched with practical examples covering crucial aspects of chartering and shipbroking business, such as voyage estimations, freight conversions and tanker calculations. New material on day-to-day laytime principles, including "Laytime Definitions for Charterparties 2013", associated commentary and relevant examples. Shipping Marketing as a modern tool of improving chartering and shipbroking business. Expanded coverage of the economic background of chartering, including markets, vessels, cargoes, trades and fixtures. Freight rates for all vessel types from 1980 to 2015. Updated review of well-known standard charterparty documents (including NYPE 2015), together with clauses and wordings commonly applying to various charter types. Analytical glossary containing typical terms and abbreviations used in chartering negotiations. This book is an essential guide for practitioners in private practice and in-house for shipowners and cargo houses, as well as those studying shipbroking and chartering.
