*SCP Series Two Field Manual May 24 2022 SCP Foundation anomalies SCP-1000 through
to SCP-1999, including containment procedures, auxiliary documents, experiment logs and
interview transcripts. An encyclopedia of the unnatural. The Foundation Operating
clandestine and worldwide, the Foundation operates beyond jurisdiction, empowered and
entrusted by every major national government with the task of containing anomalous objects,
entities, and phenomena. These anomalies pose a significant threat to global security by
threatening either physical or psychological harm. The Foundation operates to maintain
normalcy, so that the worldwide civilian population can live and go on with their daily lives
without fear, mistrust, or doubt in their personal beliefs, and to maintain human
independence from extraterrestrial, extradimensional, and other extranormal influence. Our
mission is three-fold: Secure The Foundation secures anomalies with the goal of preventing
them from falling into the hands of civilian or rival agencies, through extensive observation
and surveillance and by acting to intercept such anomalies at the earliest opportunity.
Contain The Foundation contains anomalies with the goal of preventing their influence or
effects from spreading, by either relocating, concealing, or dismantling such anomalies or by
suppressing or preventing public dissemination of knowledge thereof. Protect The Foundation
protects humanity from the effects of such anomalies as well as the anomalies themselves
until such time that they are either fully understood or new theories of science can be devised
based on their properties and behavior. _____ About the ebook This ebook is an
offline edition of the second series of fictional documentation from the SCP Foundation Wiki.
All illustrations, subsections and supporting documentation pages are included. All content is
indexed and cross-referenced. Essentially, this is what a SCP Foundation researcher would
