Solve clever clues in over 100 mind-bending puzzles Based on a viral article, the gripping medical mystery story of Ron Davis, a world-class Stanford geneticist who has put his career on the line to find the cure for chronic fatigue syndrome, the disease killing his son. For the past six years, Whitney Dafoe has been confined to a bedroom in the back of his parents' home, unable to walk, to eat, to speak. The sound of music causes him pain. At one point, the formerly healthy, young, freelance photographer, faced starvation as his 6'3" frame withered to 115 pounds. In desperation, Whitney and his parents went from one specialist to another, and still no answers. Then, finally, a diagnosis: the mysterious disease myalgic encephalomyelitis or chronic fatigue syndrome (ME/CFS). Whitney's story is heartbreaking, but it's also one of redemption. It reaches far beyond just one family's harrowing tale. Today, ME/CFS affects between 1 and 2.5 million Americans--and 20 million people around the world. Those afflicted largely suffer in silence because the disease is little known and much misunderstood. The question lingers still whether it even exists outside the patient's mind. Often disbelieved, they're abandoned by family and friends. They lose their jobs, and battle with insurance companies over rising medical costs as the chronic disease continues on year after year. In one way, Whitney has been lucky. He could reach out to his father, a world renowned, scientist, for answers. This book is the story of one father's desperate hunt for the insidious illness that stole his son away. The Puzzle Solver follows Ron as he unravels the molecular trail within his own son's donated blood and genome, to began to find answers. He confirms this is a biological disease and uncovers new possibilities for treatments and potentially a cure. At its heart, The Puzzle Solver is about more than just cutting edge research or a race to find the cure for ME/CFS--it's about the unbreakable bond between a father and his son, and the lengths to which a parent will go to save their child's life. Crime, cryptograms, and killer conundrums abound for the Puzzle Lady in the fourth installment of the series USA Today raves is "a fun series for mystery fans and cruciverbalists!" It looks like wedding bells again for the much-married Cora Felton when distinguished widower Raymond Harstein III moves into town and makes a play for the Puzzle Lady. That is, it does until the mail brings puzzling cryptograms, which, when deciphered, warn Cora off the match. Or do they? As the puzzles keep coming, a killer's game must be played in earnest, and it's up to the Puzzle Lady to solve the riddle--if anyone is going to live to make it to the altar! Here are over 300 tantalizing puzzles, brain teasers and riddles by one of the greatest mathematical geniuses of the twentieth century, Shakuntala Devi, popularly known as the 'human computer'. The puzzles include every possible type of mathematical recreation, time and distance problems, age and money riddles, puzzles involving geometry and elementary algebra, and just plain straight thinking. Often entertaining, but always stimulating, the puzzles included in the book offer hours of fun and relaxation. This book discusses how to design "good" geometric puzzles: two-dimensional dissection puzzles, polyhedral dissections, and burrs. It outlines major categories of geometric puzzles and provides examples, sometimes going into the history and philosophy of those examples. The author presents challenges and thoughtful questions, as well as practical design and woodworking tips to encourage the reader to build his own puzzles and experiment with his own designs. Aesthetics, psychology, and mathematical considerations all factor into the definition of the quality of a puzzle. Pick up a pencil and get ready to solve the puzzle--and a puzzling murder--in this lively debut of a unique amateur detective, Miss Cora Felton, the reigning queen of crosswords. Cora's an eccentric old lady with a nationally syndicated puzzle column, an irresistible urge to poke into unsettling events, and a niece who's determined to keep her out of trouble. In a slyly amusing and wickedly suspenseful mystery, this delightful heroine takes her first crack at playing sleuth. Only this isn't fun and games...It's murder. Violent crime is rare in tiny Bakerhaven. When the body of an unknown teenage girl turns up in the local cemetery, Police Chief Dale Harper finds himself investigating his first homicide. Nothing about this case is straightforward. Even a thorough search of the crime scene fails to reveal who she was, the murder weapon, or why the killer left her body in a graveyard minus her shoes. A cryptic message on a scrap of paper she carried seems to be a crossword puzzle clue. Could it have been left by the killer? If so, what does it mean? Fortunately for Harper, Bakerhaven is the new home of Miss Cora Felton, the famed "Puzzle Lady" herself, whose popular crossword puzzle column graces newspapers nationwide. Yet bringing Cora Felton into this case could be his most costly mistake. For though she may look like someone's sweet old grandmother, behind those twinkling eyes and that slightly mysterious smile lies a woman with a whopping secret...and some hidden vices. What's worse, one whiff of mystery turns Miss Felton into a modern-day Miss Marple. Now Cora is snooping through crime scenes, questioning witnesses, and gaining a lot of unwanted attention. It's just the sort of meddling, mischief-making behavior that drives Chief Harper to distraction and inspires many cross words from her long-suffering niece Sherry. But when another body turns up in a murder that hits much closer to home, Cora must find a killer--before she winds up in a black box three feet across...and six down. A delicious brew of colorful characters, irresistible intrigue, and dazzling plot twists, Parnell Hall's A Clue for the Puzzle Lady is just what a mystery should be--a generous helping of fun and a puzzle that never fails to surprise and entertain.
