Ein Musikpirat, ein mächtiger Plattenboss, eine revolutionäre Erfindung und eine illegale Webseite, die unfassbare Datenmengen anbietet. Spannend wie ein Krimi erzählt Stephen Witt zum ersten Mal die wahre Geschichte hinter der Revolution in der Musikindustrie: Wie die Handlungen einiger weniger Menschen sich zufällig so überkreuzten, dass am Ende der von niemandem beabsichtigte Niedergang der Musikindustrie durch mp3 und Internettauschbörsen stand. After rescuing an adolescent girl from the sea, researchers learn she has been raised by dolphins and attempt to rehabilitate her to the human world. Neil Young took on the music industry so that fans could hear his music—all music—the way it was meant to be heard. Today, most of the music we hear is

compressed to a fraction of its original sound, while analog masterpieces are turning to dust in record company vaults. As these recordings disappear, music fans aren't just losing a collection of notes. We're losing spaciousness, breadth of the sound field, and the ability to hear and feel a ping of a triangle or a pluck of a guitar string, each with its own resonance and harmonics that slowly trail off into silence. The result is music that is robbed of its original quality—muddy and flat in sound compared to the rich, warm sound artists hear in the studio. It doesn't have to be this way, but the record and technology companies have incorrectly assumed that most listeners are satisfied with these low-quality tracks. Neil Young is challenging the assault on audio quality—and working to free music lovers from the flat and lifeless status quo. *To Feel the Music* is the true story of his quest to bring high-quality audio back to music lovers—the most important undertaking of his career. It's an unprecedented look inside the successes and setbacks of creating the Pono player, the fights and negotiations with record companies to preserve masterpieces for the future, and Neil's unrelenting determination to make musical art available to everyone. It's a

story that shows how much more there is to music than meets the ear. Neil's efforts to bring quality audio to his fans garnered media attention when his Kickstarter campaign for his Pono player—a revolutionary music player that would combine the highest quality possible with the portability, simplicity and affordability modern listeners crave—became the third-most successful Kickstarter campaign in the website's history. It had raised more than \$6M in pledges in 40 days. Encouraged by the enthusiastic response, Neil still had a long road ahead, and his Pono music player would not have the commercial success he'd imagined. But he remained committed to his mission, and faced with the rise of streaming services that used even lower quality audio, he was determined to rise to the challenge. An eye-opening read for all fans of Neil Young and all fans of great music, as well as readers interesting in going behind the scenes of product creation, *To Feel the Music* has an inspiring story at its heart: One determined artist with a groundbreaking vision and the absolute refusal to give up, despite setbacks, naysayers, and skeptics. ISBN : 978-623-79438-7-7 blurb : Pengantar Karya Musik Chamber “Kacang Dari” Nilai-nilai kehidupan dapat ditemukan, baik secara implisit maupun eksplisit di dalam karya-karya seperti dongeng, lagu-lagu, dan permainan tradisional. Ada paradoks dikotomis yang mengkontradiksikan perkembangan lagu-lagu populer untuk anak-anak Indonesia dewasa ini adalah komersialisasi yang tidak kalah menggebunya dengan musik pop orang dewasa pada umumnya. Lagu anak-anak sudah dipandang sebagai hal yang ketinggalan jaman dan tidak lagi relevan dengan situasi sekarang ini. Wira Adhi mengangkat karya lagu pengantar tidur dengan judul “Kacang Dari” bukannya tidak ada maksud untuk mengangkat lagu lainnya sebagai sebuah karya yang menarik, tetapi karena justru lagu pengantar tidur bagi anak-anak ini mempunyai nilai dan makna pendidikan karakter dalam lirik lagunya. Secara tidak langsung lirik lagu “Kacang Dari” memberikan petunjuk kepada pendengarnya khususnya anak-anak. Kemudian perlu diingat bahwa Gegendingan (Sekar Rare) di Bali mempunyai lagu dan irama yang halus, tenang, berulang-ulang (monoton), dengan mengambil tema kasih sayang, terkesan santai, sejahtera, dan

menimbulkan rasa kantuk bagi anak yang mendengarkannya". Setiap putra dan putri Bali yang pernah atau sedang mengasuh anak kecil, gending Bali tidaklah asing lagi bagi mereka. Buku Pengantar Karya Musik Chamber "Kacang Dari" ini sangat layak dibaca oleh mereka yang yang bergelut dalam bidang Musik, calon musikus, mereka mencintai seni musik klasik dan musik Nusantara, dan tentunya para komposer musik di Indonesia. Music is an expression of feelings of the soul conveyed through the medium of sound. But not all sounds are music. It might be said that only an organised sound or series of sounds can be called music. Thus, music is connected to the eternal and constant flow and order of the universe, to the laws and rhythms of nature. It can also be said that musical order is comparable to the natural order of the universe. There are laws of a certain nature in the natural sciences and likewise in music there are structures and procedures, or even rules, that should be followed to produce beautiful music. The International Conference "Innovations for 21st Century Music Education and Research" provided a timely opportunity to take stock of the latest developments in music education and brought together educators, researchers and

members of the broader community in a welcoming forum in which they were able to express theoretical and practical views, concepts, research results and principles to help support the further development of music education. You ain't nothing but a "Hound Dog" ... with these words shouted into the microphone she will always be remembered: Big Mama Thornton. Who is this woman who sang the megahit "Hound Dog" before Elvis Presley and who wrote "Ball & Chain," the song that catapulted Janis Joplin to sudden fame? The story begins with her first musical attempts in the Hot Harlem Revue as a girl of 14. Then the book follows her journey into the Mecca of Texas Blues, Houston, where Big Mama Thornton met Johnny Otis, with whom she recorded her greatest success--"Hound Dog." With the slowdown of the blues in the early sixties this book follows Big Mama Thornton's way to California, discusses her struggle to survive and celebrates her impressive musical comeback in the course of the blues revival and the hippie movement. With the end of the sixties, facing a declining interest in the old school blues, the book shows how Big Mama Thornton found her niche in clubs and festivals in the U.S. and Europe. The book then follows Big Mama

Thornton through the seventies and eighties until her untimely death. As an annual event, 3rd Annual Conference of Engineering and Implementation on Vocational Education (ACEIVE) 2019 continued the agenda to bring together researcher, academics, experts and professionals in examining selected theme by applying multidisciplinary approaches. Taking Walt Whitman's Civil War poems as an inspiration, Rob Halpern's *Music for Porn* moves across the landscape of battlefields and homoerotic affect in an encompassing engagement of desire and death. Halpern work, constructed of poetry and lyric prose, evinces a world in which the physical and linguistic body are permeated by, and implicated in, the globalized maneuvers of modern warfare and capitalist endeavor. Sample Book Insights: #1 Music has been a great joy in my life. I've performed for more than fifty years, and written and recorded scores of albums. I've traveled around the world performing for audiences in dozens of countries.

#2 The acceptance of poor quality ripples throughout the industry and makes it even more difficult to reverse direction. People get used to hearing this poorer quality and many never experience what music could sound like.

#3 The deterioration of quality is not happening with other digital content, only audio. The record companies want to charge more to stream high-resolution music because it sounds better, but this is wrong. If the record companies were to take the price restrictions off the streaming companies, then it would be up to the streaming companies to improve their technology and bring high-quality music into the twenty-first century.

#4 The music and technology industries argue

that people can't hear the difference between high and low quality audio, but that doesn't mean it shouldn't be there. Some people can hear the difference, and they deserve to be able to hear it.
